the Rockport, Ind. Journal prints a letter from Robert Ray, a I mioniveteran of I cell City, who says

"I emisted in Company I. Phird kennecky Cavalry, June 20, 1841, and served until the 20th day of June 1865, four years While in the service I was known as Corporal Rob. From 1864 until If was captured, I did scout duty, and while changed in this duty I was captured in June, 1864 At the time I was daptured there were twenty-three of us together. We were caught in ambush and twenty of the boys were killed by the Third Texas Rangers, and the other three, including myself, were wounded and captured. I was taken to Andersonville prison and then transferred to Saulebury and then to Libby prison, and when I got out of prison my weight was eighty, my usual weight being 168 pounds. I was twice wounded in battle before my capture. After the war I was granted 56 per month, and in 1878 my pension was increased 86 per month, and I never made application for increase since 1878. I am now totally disabled and almost billed, and thus year, under Hoke Sailth, my pension was decreased \$6 per month, and a leading Democrat of my town said If I would keep this quiet he would see that my claim was restored. I told him I did not have to beg for what was my just dues, and now make this public appeal to my old comrades to vote against the party that will allow and Indose this treatment of a soldier.

Referring the futile efforts of the ould be harmonizers to harmonize in the New York Congressional elections, the correspondent of the Philadelphia Press under date of Wednesday says At 1 30 this morning Mr Grace and some of his lautenants left Democratic head quarters, weary-eyed, hourse-voiced, completely fagged out. They had spent the day going from Dan to Beershebs, so to speak. They met Senator Hill fo the first time in many years, and they found him very cordial. They crossed town dimost as many times as a cross town horse car does, visiting Senator I author at one hotel, going to the guad ily-bannered headquarters of the Committer of Seventy afterbuid, uptown downtown and across town, marching and counter-marching, and at last brought up at the leadquarters of the State Committee late in the evening These evolutions had been made for the purpose of bringing about some compromise if possible and puc by which the Grace Democracy could secure the return to Congress of John De Witt

A very sad affair resulting in the death of Paul Michaud occurred at Van Buren recently. Paul with his brother, Belone Michaud, and Baptist Violotte, had been at work in their water-mill at Grand River during the duy and at about 7:30 r u, they started to cross the St. John in a small boat. A heavy wind prevailed at the time and when the middle of the river was reached their frail craft was suddenly capital, and being unable to swim Paul was drowned. The body was recovered on the following morning and the interment took place Thursday from the Catholic church. The deceased was about twenty-five years of agg, and leaves a wife and young child.
